## RECOMMENDATIONS/CONCERNS

1. It is very costly (it cost over \$400.00) and time consuming to have to move the track and field equipment from one site to another. I believe the benefit of using more than one facility for local meets far outweighs this cost but we must look at ways of reducing this cost.
2. Our playing regulations are out of date. We must get this updated ASAP. An effort will be made to present something at next autumn's assembly.
3. JF Renaud is bringing us into the 21<sup>st</sup> century. The use of tablets for the field events is a great idea. We must work out the 'kinks' to make it more user friendly and to not scare off the 'older' track coaches. Many thanks JF for all your work.
4. All head coaches/schools must ensure that their school fulfills their job assignments with **enough qualified/knowledgeable adults** and supplement the adults with enough students to make their event run smoothly and **safely**.
